APPEALING TO THE MODERN (MOBILE) RENTER

Our team provides a seamless online leasing experience for prospective renters. The prospective renter submits an application, we conduct a thorough screening of the applicant and then they sign the lease – all electronically. Making this process easy and simple for the modern renter and our team, means we can rent properties faster and more efficiently.

Once the lease is signed, tenants are provided access to the online tenant portal where they can conveniently pay their rent online 24/7 instead of mailing checks.
